

Intellectual Property Right (IPR)

As Bramhapuri is a semi urban area, most of the localities, students and staff are not aware of significance of IPR. To create the awareness among them about IPR, college organizes IPR awareness program through IQAC Cell.

Due to the lack of awareness on the significance of IPR, many of the inventions/creations emanating from colleges are not getting protected. The Inventions are being published in newspapers and media and thus they are disqualified for getting patent. Hence, to guide the student and faculty in the colleges in protecting their intellectual properties, IQAC cell contribute in this direction and it create awareness and provide the guidelines.
